## Case-lessons

5 Jupiter House, Calleva Park,  
Aldermaston, Reading, Berkshire,  
RG7 8NN, United Kingdom

Dear Colleagues!

Thank you for everything that you are doing for students and developing progressive education initiatives. I address you as an Expert in education innovations.

I am Founder and CEO of Edu Future Corporation. We develop innovative Case-lessons based on the unique 7W® methodology. We help teachers, students, parents, and lifelong learners in the interdisciplinary study of objects, phenomena and concepts in a combination of fundamental knowledge and practical applications in the real world.

Only Case-lessons have a magic formula: «More knowledge in less time!», that was a dream of many generations.

The students enjoy it and get wonderful results. They accept knowledge deeper, faster and memorize for longer. It changes schools dramatically and became the most fashionable educational tool now.

It is also very good for teachers, because they save time on preparing for lessons (!), have no problems to hold discipline in class (!!), and join the progressive international teacher's elite (!!!).

Many teachers and principals are looking for something new and extraordinary for the new school year. And here they are! Where to get these unique Case-lessons?

The biggest collection of Case-lessons (500+) laid out on the education platform <http://edufuture.biz/landing/>. They grouped by ages (elementary, secondary, high school), by topics (STEM, Nature, World, PHSE), as interdisciplinary study of objects and phenomena.

They are developed by Education Corporation «Edu Future 7W» by the best educators, researchers and visionaries.

Every Clever School must have smart Case-Lessons! Welcome to the new Education age!

Thank you for your attention and time.

Sincerely yours,

Vladimir Spivakovsky, Ph.D,  
President of Edu Future
